

BIODECLEAN MARINE®

Safety Data Sheet
Revised: 20/01/2017

Section 1: Product Identification / Company Information

Product identification: Biodeclean Marine®

Commercial name: Biodeclean Marine®

Manufactured by:

BIOTEK PETROL SRL

Calle 2 Mz53/S12 esq. Colón, Ciudad de la Costa, Canelones, Uruguay

Synonyms: N/A

Chemical formula: Biosurfactants, Brosplus®, Bacteria (spores) Excipients and water.

Emergency contact:

(+598) 2696 9259

GMT/UTC -3 (working hours from 9.30-17.00)

Website: www.biotekpetrol.com

E-mail: info@biotekpetrol.com

USE: Designed for superficial hydrocarbon cleaning. Designed for the shipping industry, being able to detach adhered marine species that normally form in the hull of ships, docks and surrounding areas. It acts as a fungicide and bactericide.

Note: This product is NOT an EPA hazardous substance.

Section 2: Composition / Information of ingredients

INGREDIENTS: MATERIAL/COMPOUND:

It is a 100% natural bio-activated product. Composed of bacteria (Bacillus family), non-pathogenic and non-toxic. All the ingredients in the concentrations applied are not considered or classified as dangerous to health or the environment.

Due to the percentage of chemical composition, the components are biodegradable at their final disposal.

Section 3: Hazards identification

This product is not considered hazardous under Federal OSHA standard risk communication criteria 29 CFR 1910.1200 and EPA. And is consistent with the GHS global system of classification and labeling of chemical products.

Hazardous class: No
Hazardous category: No
Dangerous composition: No

POTENTIAL effects to health: N/A
TOXICOLOGY: Non-Toxic. (See section 11 for more information)

Skin contact: N/A

Eyes contact: not expected to cause injury

Ingestion: Can be toxic in large quantities. May cause stomach pain and induce vomit.

Conditions aggravated by exposure: none known carcinogen: N/A

OSHA: None

Others: None

Section 4: First Aids

PROCEDURES in case of emergency and first aid

Eyes: Flush eyes with plenty of water.

SKIN: Wash with plenty of water.

INGESTION: Do not ingest. **IN CASE OF ACCIDENTAL INGESTION:** Drink abundant water and immediately contact your center for poison control, a doctor or hospital

INHALATION: If exposed to the product for a prolonged time, move the person into a well-ventilated area. If the person experiences shortness of breath or dizziness, seek medical attention immediately

Section 5: Fire prevention measures

Limits of ignition in air % vol.; Inferior: N/A, Superior: N/A

Extinct Agent: N/A

Special procedures to attack fire: N/A

Risk of explosion and sudden fire: N/A

Section 6: Procedures in case of spills or accidental release

Personal protective equipment: Wear safety glasses and rubber gloves.

ACCIDENTAL release measures: Pick up physically, get rid of the waste, then rinse the area with abundant water.

MEASURES for the protection of the environment: avoid the product entering water channels.

METHOD of waste disposal: Drain well or dispose in accordance with the regulations established.

Section 7: Handling and storage

HANDLING and storage: Keep container tightly closed and avoid direct contact with sun light and high temperatures to prevent decomposition.

OTHER precautions: Use safety equipment for the job. Cleaning method: as recommended by place of work. It could be slippery when the floor is wet.

For information of product lifetime: please contact Biotek Petrol SRL. +598 2696 9259 customer service.

Section 8: Protection equipments

Employers must complete an assessment of every place of work: to determine the need, and selection of the adequate controls for exposure and protective equipment in each task performed.

Engineering controls: Ensure adequate ventilation, especially in confined areas.

RESPIRATORY protection: It is recommended to wear a protective mask for the job.

Eyes Protection: Wear safety glasses in every task or follow the safety work practices: use of safety equipment at work.

Section 9: Physical/Chemical characteristics

Typical physical and chemical properties are the following. For further details contact the supplier in section I.

Physical state: liquid

Color: Clear Blue

Odor: N/D

BOILING point: 82° C

Melting point: N/A

Specific gravity: (H2O = 1): 0.93

VAPOR pressure: N/A

VAPOR density (air = 1): N/A.

SOLUBILITY IN water (% VOL): 100% Soluble.

% VOLATILES BY VOLUME: 3%

P.M.: N/A.

Description: Liquid, non-toxic, non-corrosive, not reactive, non-allergenic, pH (25° C) = 6.80 -7.80

Section 10: Stability and reactivity data

STABILITY: Stable

Conditions to avoid: High temperature

Incompatibility (materials to avoid): N / A

Dangerous decomposition products: N/A

Hazardous polymerization: N/A

Section 11: Toxicology information data

Toxicology: LC50 96 h acute toxicity at BROS-PLUS test using the mysid shrimp estuary *Metamysidopsis insularis*, as the animal's test was 0.02% or 261.36 mg/L,

Additional toxicological information: the product is not toxic according to the toxicological classification of EC on substances toxic.

NOT TOXIC. If used as recommended

Section 12: Ecological information data

BROSPLUS - was tested for aerobic biodegradability as a solution the OECD 301 test method on a window from 28 days under optimal conditions. The data suggest that in 28 days, biodegradability is 85%.

ECOLOGICAL INFORMATION: Persistent / degradability: BIODEGRADABLE

BIO - accumulation: no bio-accumulation

Section 13: Considerations for disposal

WASTE DISPOSAL METHOD: dispose in accordance with local government, State and federal regulations. For proper disposal of the used material, an assessment must be completed to determine what is proper and permissible and the management options allowed by the rules, regulations and laws that govern its location.

ACCORDING TO THE NUMBER OF EPA HAZARDOUS WASTE: It is not considered a hazardous waste

RCRA: PRODUCT PACKAGING AND DISPOSAL: dispose of packaging in accordance with federal, State, and local requirements as well as compliance with regulations and laws that govern its location.

RCRA HAZARD CLASS: N/A

Section 14: Transport information

United States Department of transportation

Hazard class: N/A NMFC (National Motor Freight Classification):

Shipping name: BROSPLUS ®

Class: 70 road non-flammables, non-hazardous

Shipping classification and railway ADR/RID (cross border): unregulated

Class ADR/RID-GGVS/e: not regulated for vessel

IMDG: not regulated for air

ICAO-TIIATA-DGR:-not regulated

Section 15: Regulatory information

OSHA status: This product is not dangerous under OSHA29 CFR 1910.1200 criteria.

TSCA status: This product is under TSCA (Complete response compensation and Liability Act) not reported.

SARA title III (amendments from a CERCLA (comprehensive response compensation and Liability Act)): not reportable

EPA's hazardous substances (40 CFR 302) = s/o state of SARA 302 no chemicals in this material are considered hazardous substances according to the standards of SARA title III, section 302.
N/A

section 311/312 hazard categories: non-hazardous under section 311/312

section 313 toxic chemical: N / A

SARA 313: This material does not contain any chemical component above the minimum threshold set out in the list of toxic chemicals (TL) that must be reported in compliance with the SARA guidelines, Title III, Section 313.

EUROPEAN UNION

Classification of the European Union according to the Regulation (EU) 1272 / 2008.

Classification according to Regulation (EC) No.648/2004

RCRA State: It is discarded in the form of purchase, where this product contains no hazardous waste either by list or by characteristic.

POINT NOT BULK /IMDG: NOT REGULATED

IATA/ICAO = NOT REGULATED AS DANGEROUS GOODS.

Section 16: Other information

This safety data sheet contains changes from the previous version in many sections, that are included in this new format of new safety data sheet. The information contained herein reflects the most recent data.

If you have any questions, please call to: (+598) 2696 9259 GMT/UTC -3 (working hours from 9.30-17.00)

Disposal of the product, please follow the rules and regulations of each country either at state or federal level.

Disclaimer: None of the precise ingredients are dangerous. The chemical properties are displayed in TSCA, EPA inventory. Where, any express or implied warranty regarding these data or the results to be obtained from your use of it, Biotek Petrol SRL. assumes no responsibility of injury to customers or third parties caused by the material if security procedures are not followed as referred to, in this safety data sheet.
